ABOUT ME

I build marketing that a business can measure, predict and scale.

8+ years in performance marketing, SEO, PPC and CRM automation for B2C and B2B: e-commerce, beauty, food delivery, education, automotive services, travel and renewable energy. Today I head e-commerce and marketing at Fine Spirits: team, budgets, strategy and KPIs.

Data first: clean tracking, a clear funnel and creatives built around what the client really buys. Budget then goes only to what sells.

> **My goal: projects where ads, analytics and product work as one system, and a team that grows it with me.**

1 Task

Bring local Italian clients to a permanent make-up studio and sell its training courses, without an aggressive sales tone.

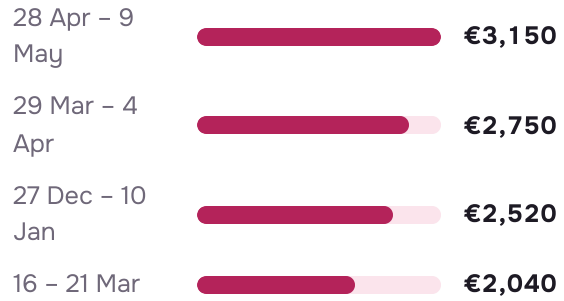

2 What I did

- Trust-first ads: the working process, macro shots, before/after
- Traffic to Instagram, which warmed people up until they wrote to Direct
- Careful retargeting of profile visitors and video viewers

3 Result

- **€22,354** revenue after ad spend
- **€20,990** from procedures
- **€5,000** from courses: lips + 3 brow trainings

1 Task

Fill the salon's schedule with new clients for massage, facial and laser procedures at a cost per booking the salon can afford.

2 What I did

- TOFU → MOFU → BOFU funnel, Lead Ads and dynamic remarketing
- Price-anchored offers with limited spots
- A quiz and blogger collaborations

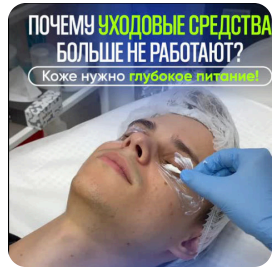

3 Result

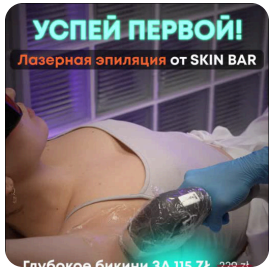

- **1,100+** bookings
- **3.5–4.0×** ROAS

Make advertising pay for itself for a network of hair and beauty salons.

2 What I did

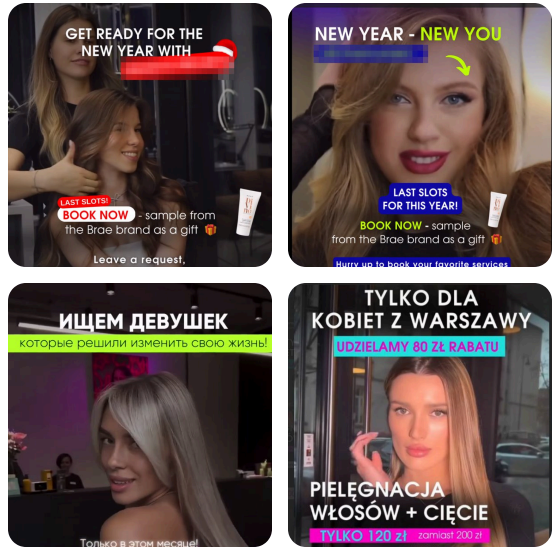

Calculated the break-even point: **115 clients** who actually come in. Then set the maximum price per lead and per booking.

3 Result

The **KPI was met**. Better booking and show-up rates let ads pay up to **$3.28 per lead** and still break even.

1 Task

Grow sales of an alcohol online store that delivers across Poland, plus the shop, B2B and HoReCa, within strict alcohol ad policies. Lead the marketing team and contractors.

2 What I did

- Meta Ads full funnel: catalog of 2,700+ products, product sets, DPA, retargeting, CAPI
- Google Ads: Search, brand protection, delivery queries
- New site navigation: 88 hidden gift boxes back in sight

3 Growth & retention

- Mobile app on the business side: loyalty, app-only offers, 66 screens reviewed, ASO
- Seasonal calendar: Black Friday, Christmas, corporate gifts
- Monthly KPI dashboards for management

Meta Ads Manager, 6-month snapshot: campaigns by city, average ROAS 5.26

Remarketing

The key decision. Before the rebuild weekday ROAS jumped around 2–3×. After it, 4–6× on weekdays and a steady result all month.

Formats

UGC and motion video worked best. Instagram traffic ran in parallel as an extra sales channel.

Seasonality

Friday to Sunday are the order peaks. Budget boosts for Black Friday and New Year. Sushi has no dead season.

Approach

No magic tricks: constant testing of audiences, visuals and copy to find the winning combinations, with ROAS as the main KPI.

1 Task

Launch a brand-new sushi brand in Warsaw from zero and make delivery orders profitable.

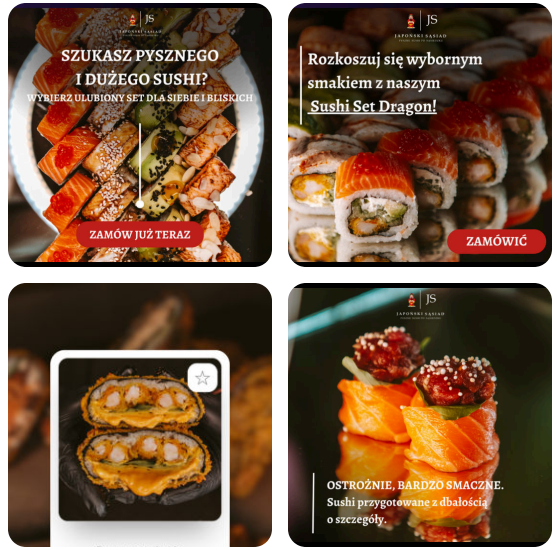

2 What I did

- Built the brand from scratch: took part in launching the website and the loyalty system
- Instagram profile and ads with close-up food, sets with a price and an order button
- Collaborations with bloggers

3 Result

- An order costs **~23 zł** with a **~200 zł** average check: ads run in profit
- **2 more restaurants**: a second one in Warsaw and one opening in Wrocław

$5.81
CPM
below the German food average of $8–15

1 Task

Take over the ad account of a premium sushi delivery in Frankfurt, fix the analytics and grow orders on a small budget.

2 What I did

- Full audit, then all data in one Looker Studio dashboard the client can read at a glance
- Rebuilt GA4 and tracking so every order is counted correctly
- An AI ordering bot in Instagram Direct, built and tested with the developers

3 Strategy

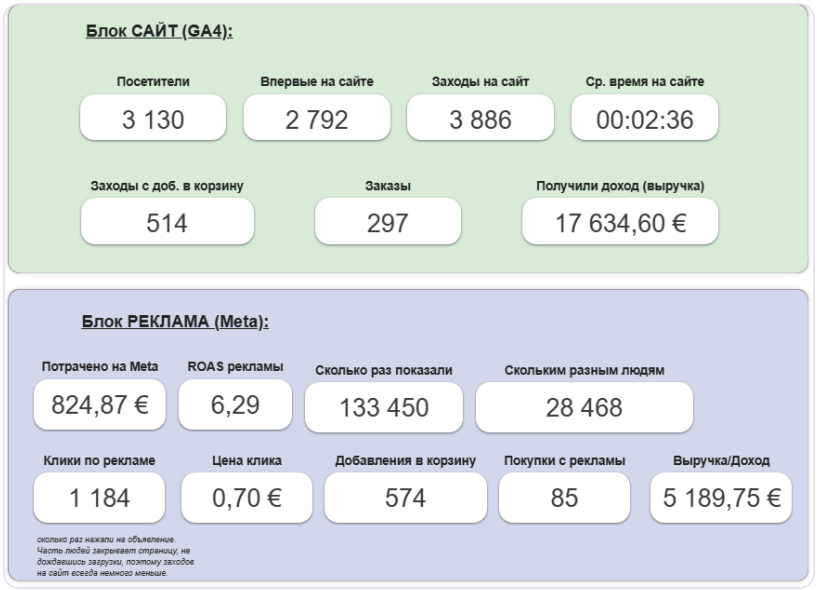

- Several directions pushed at once, not only cold and warm
- Separate retargeting for people who added to cart but did not buy
- Ads that lead straight to Direct, where the bot takes the order

STRATEGY

Every project starts with a plan, and goes further

Every client gets a promotion plan, a competitor analysis and an audit of the ad account before the first ad goes live. I map the audience and the offers and agree on KPIs. A few examples:

AEROSTRETCHING STUDIO · WARSAW

Aery.studio

- 2 audience segments, beginners and experienced, with their pains and goals
- Ads of 3 competitor studios analyzed
- Trial class offers: 59 zł and 39 zł
- Budget 3,000 zł with a forecast of 90–150 leads

TRAVEL AGENCY · POLAND

Swtours

- Launch from a new account with no history
- Audience: students 18–26 looking for budget tours
- Goals: brand awareness, new followers, first clients

LANGUAGE SCHOOL · 3 CITIES

Raccoon School

- Separate offers for kids and adults in each city
- Funnel KPI: leads, bookings and show-ups needed for 30 sales
- Daily reporting sheet with cost per lead and per booking

HOW WE WORK TOGETHER

From audit to steady, predictable growth

1 Audit

Ad account, Instagram profile, offers, prices and tracking. What already works and where money leaks.

2 Plan & KPI

Break-even point, funnel KPIs, audiences, budget split and the offer for each product or service.

3 Creatives

Concepts and briefs built around what the client buys: a clear offer, a price and one action.

4 Launch & test

Pixel and events set up. A/B tests of creatives, copy and audiences.

5 Scale & report

Budget moves to what sells. Regular reports on leads, sales, cost per result, ROAS and ROMI.
